Your Actuary Tutor (YAT) Exam FM Schedule (Feb 2026)-FINAL.pdf; 2026-02-fm-syllabus.pdf;

Hi All,

We will be launching another Exam FM bootcamp this Fall to support students preparing for the February 2026 sitting!

Sessions Start: December 5, 2025

Please see the attached bootcamp schedule.

Please note: This schedule serves as a **minimum** as I often put on additional sessions to help support students as the exam gets closer. There is no additional cost for this as my mission continues to build foundational strong future actuaries.

What's Covered?

All sections of the syllabus will be covered in the camp. It would be beneficial if students have some previous exposure to the material based on the overall steep learning curve.

What's Expected?

From Myself:

- Interactive instruction of **ALL** the material (making it relatable and fun 😊)
- Continual support and assistance as they learn this new area of mathematics.
- Individualized walkthrough videos for all participants struggling with questions or concepts.

From Participants:

- Being **punctual** for sessions
- Vocalize when you're not understanding. (I have many ways to relate this information so do not just sit there if you are not following)
- Create and follow a study schedule
- **Practice all worksheets assigned**
- **Practice independently** (This is now proven to be one of the most important item that sets our successful students apart from others based on our camps experience)

If I say we will practice 300 questions across this camp's duration, participants are to **double that number independently (600).**

See you all December 5th!

Please let me know if you have any questions.

Thanks

Sean Gillings, ASA
